Subject Index for Volume 24

A

- Acetazolamide, for cystoid macular edema with Best disease, 481
- Acute annular outer retinopathy, indocyanine green angiography for, 796
- Acute posterior multifocal placoid pigment epitheliopathy, macular serous detachment in, 650
- Acute promyelocytic leukemia, paracentral scotoma in, 147
- Acute retinal necrosis, optic neuropathy and blindness from, 297
- Adjuvant chemotherapy, for retinoblastoma, 849
- Adult-onset foveomacular vitelliform dystrophy
 - central serous chorioretinopathy resembling, 301
 - vitelliform lesions from, 399
- Afterimages, after lysergic acid diethylamide (LSD) use, 805
- Age-related macular degeneration. *See* Macular degeneration, age-related
- AIDS (Acquired immunodeficiency syndrome), cytomegalovirus retinitis in, 41
- Albendazole, for subretinal cysticercosis, 469
- Alport syndrome, retinal thickness decrease in, 977
- Alternaria* endophthalmitis, amphotericin and fluconazole for, 478
- Ambulatory surgery, for rhegmatogenous retinal detachment, 246
- Amphotericin, for *Alternaria* endophthalmitis, 478
- Anastomosis, chorioretinal, photocoagulation with submacular surgery for, 161
- Angiogenesis. *See* Neovascularization
- Angiography. *See* Fluorescein angiography; Indocyanine green angiography
- Angioid streaks
 - photodynamic therapy with verteporfin for, 763
 - transpupillary thermotherapy for, 801
- Animal studies
 - biomechanical characteristics of the retina (pig), 967
 - chick chorioallantoic membrane model for vitreoretinal microsurgery, 427
 - choroidal perfusion after laser-induced macular holes (monkey), 92
 - full-thickness neuroretinal graft for photoreceptor degeneration (pig), 98
 - indocyanine green dye migration into optic nerve (rabbit), 412
 - indocyanine green effects (pig), 275
 - indocyanine green injections on the retinal surface and subretinal space (rabbit), 80
 - intravitreal injection of indocyanine green (rabbit), 69
 - photosensitizer PhotoPoint MV6401 for choroidal neovascularization and choriocapillaris (monkey), 521
 - prinomastat (AG3340) for epiretinal membrane (rat), 783
 - retinal toxicity from subconjunctival injection of carboplatin (rabbit), 776
 - small interfering RNA against vascular endothelial growth factor for choroidal neovascularization (primate), 132
 - small interfering RNA against vascular endothelial growth factor for choroidal neovascularization (primate) (*letter*), 660, 661
 - vitreoperfusion measurements of ocular oxygen consumption (cat), 120
- Annular scotoma, multifocal electroretinography and optical coherence tomography for, 772
- Anterior capsular occlusion, retained silicone oil and, 483
- Anthrax vaccination, central serous chorioretinopathy and, 624
- Antibiotic susceptibility testing, for bacterial endophthalmitis, 391
- Antibiotics, for endophthalmitis prophylaxis, 699
- Argon blue lasers, for S-cone syndrome, 946
- Arteriovenous malformation, dural, superior ophthalmic vein occlusion with, 491
- Aspergillosis, dyschromatopsia and decreasing visual acuity from, 166
- Astrocytic hamartoma, gyrate retinal and choroid atrophy with, 976
- Atopic dermatitis, retinal detachment with, 953
- Autofluorescence, for vitelliform macular dystrophy, 929
- Axial length measurements, laser Doppler interferometry for, 655

B

- Bacterial endophthalmitis, antibiotic susceptibility testing for, 391

Bartonella henselae infection, retinal and optic nerve neovascularization in, 176

Best disease

with cystoid macular edema, 481

with ocular histoplasmosis, 799

optical coherence tomography for, 322

Bietti's corneoretinal dystrophy, in retinitis pigmentosa, 416

Binocular occlusion, ambulatory, for rhegmatogenous retinal detachment, 246

Blindness, from acute retinal necrosis, 297

Bloch-Sulzberger syndrome. *See* Incontinentia pigmenti

Book reviews, 493

Branch retinal vein occlusion. *See* Retinal vein occlusion, branch

Breast cancer, retinal and vitreous metastasis from, 226

Butterfly needles, for vitreous tap, 803

C

Calcifications, sclerochoroidal, in glomerulonephritis, 304

Cannulas, infusion, for perfluorocarbon liquids, 116

Carboplatin, retinal toxicity from subconjunctival injection of (rabbit), 776

Carotid artery dissection, internal, central retinal vein occlusion and, 979

Carotid artery obstruction, internal

central retinal vein occlusion and, 461

choroidal vascular abnormalities in, 915

Cat-scratch disease, retinal and optic nerve neovascularization in, 176

Cataract formation, after pars plana vitrectomy in diabetic patients, 574

Central retinal artery occlusion. *See* Retinal artery occlusion, central

Central retinal vein occlusion. *See* Retinal vein occlusion, central

Central serous chorioretinopathy

anthrax vaccination and, 624

corticosteroid dermal cream and, 471

indocyanine green-guided photodynamic therapy for (*letter*), 988, 989

retinal pigment epithelium tear in, 633

yellow submacular deposits in, 301

Cerebral aneurysm, subarachnoid hemorrhage-related-intraocular hemorrhage and, 36

Chemotherapy, for retinoblastoma, 849

Chick chorioallantoic membrane, as a vitreoretinal microsurgical model, 427

Children. *See also* Infants

optic neuritis and premacular epiretinal membrane in, 972

regressed retinopathy of prematurity in, 368

CHM gene mutations, in choroideremia, 940

Choriocapillaris, photosensitizer PhotoPoint MV6401 for (monkey), 521

Chorioretinal anastomosis, photocoagulation with submacular surgery for, 161

Chorioretinal disease, differential diagnosis and treatment of, 957

Chorioretinopathy, central serous. *See* Central serous chorioretinopathy

Choroidal abscess, from *Nocardia asteroides* infection in renal transplant patients, 164

Choroidal hemangioma

polypoidal choroidal vasculopathy with, 629

in Sturge-Weber syndrome, 152

Choroidal melanoma, immunosuppressive agents disease and, 454

Choroidal metastasis

from cutaneous melanoma, 622

from lung cancer, 168

Choroidal neovascularization

in angioid streaks

photodynamic therapy with verteporfin for, 763

transpupillary thermotherapy for, 801

with chorioretinal anastomosis, photocoagulation with submacular surgery for, 161

juxtafoveal, photodynamic therapy with verteporfin for, 501, 863

laser photocoagulation vs. photodynamic therapy with verteporfin for, 13

after macular hole surgery, 714

macular translocation with 360-degree retinotomy for, 548

optical coherence tomography with angiography for, 910

peripapillary, with optic nerve drusen, 739

photodynamic therapy with verteporfin for, 1, 512, 618, 763, 863

photosensitizer PhotoPoint MV6401 for (monkey), 521

after radial optic neurotomy, 610

small interfering RNA against vascular endothelial growth factor for (primate), 132

small interfering RNA against vascular endothelial growth factor for (primate) (*letter*), 660, 661

subfoveal, photodynamic therapy with verteporfin for, 1, 512, 863

submacular surgery for, 888

subretinal, submacular surgery for, 219

Choroidal perfusion

indocyanine green angiography for, 210

after laser-induced macular holes (monkey), 92

after macular translocation, 210

Choroidal vasculopathy, polypoidal, with choroidal hemangioma, 629

Choroideremia, *CHM* gene mutations in, 940

Cidofovir, for cytomegalovirus retinitis in AIDS patients, 41

Cisplatin therapy, choroidal metastasis after, 622

Clinical/Pathologic Correlation

anterior capsular occlusion with retained silicone oil, 483

multiple evanescent white dot syndrome, 637

Coats-type pigmentosa retinitis, pars plana vitrectomy for, 450

Collateral circulation, retinal choroidal, after radial optic neurotomy, 356
